

July 2018

Dear Parent / Carer,

Equipment needed for Maths lessons

The Maths Department would like to support your child in making excellent progress in maths and achieving a strong grade in their GCSEs. To do this is important your child has the correct equipment in their maths lessons as from September 2018.

Below is a list of all the equipment:

1. Three black pens
2. Two pencils
3. One 30cm ruler (not a bendy one)
4. A Casio fx-85GT PLUS calculator - £12
5. A mathematical set that contains a rubber, sharpener, protractor and a pair of compasses.

Calculators can be purchased via the school on Sims Agora under "Stationery". Once you have paid, your child's equipment will arrive within two weeks.

I hope that by working closely together, we will ensure that your child achieves their full potential in mathematics. If you have any queries, please contact us on the school number above.

Yours sincerely,

Mrs C Kenda
Curriculum Leader, Mathematics
